Dolce Vita

Symphonic

- **FINITURA ORO**

La doratura decorativa utilizzata per la nostra rubinetteria è di colore oro 24 K.

Lo spessore medio applicato di oro è di circa 0,15-0,2 micron per garantire resistenza all'usura e alla corrosione.

- **GOLD FINISHING**

The decorative gold plating used on our faucets is in colour gold 24 K.

The medium average gold thickness applied is around 0,15-0,2 micron to guarantee a good corrosion and wear resistance.

- **FINITION OR**

La dorure décorative utilisée sur nos produits est en coloris or 24 K.

L'épaisseur moyenne appliquée d'or est d'environ 0,15-0,2 microns pour garantir résistance à l'usure et à la corrosion.

- **FINITURA NICHEL SPAZZOLATO**

Il deposito di fosforo insieme al nichel (in % da 10 a 12) viene utilizzato per aumentare la resistenza alla corrosione e all'invecchiamento dei depositi di nichel spazzolato.

- **BRUSHED NICKEL FINISHING**

The deposit of phosphorus together with the nickel (in% from 10 to 12) is used to increase the resistance to the corrosion and the aging of the deposits of brushed nickel.

- **FINITION NICKEL BROSSÉ**

Le dépôt de phosphore avec le nickel (en% de 10 à 12) est utilisé pour augmenter la résistance à la corrosion et au vieillissement des dépôts de nickel brossé.

- **PVD (Physical Vapour Deposition)**

Per particolari progetti del settore Contract, Hotel & Wellness è disponibile il trattamento PVD (Physical Vapour Deposition)

For special projects in the Hotel & Wellness and Contract field, it is available the PVD treatment (Physical Vapour Deposition)

Pour les projets spéciales dans les secteurs Contract, Hôtel & Wellness est disponible le traitement PVD (Physical Vapour Deposition)
